## INJUNCTION THREAT.

Charles H. Godfrey Interprets the Law to the Board of Education.

## HE WANTS A NEW BOARD

And Claims That Every Member in the Present Board Were Illegally Elected.

The monotony of the lives of the members of the board of education of this city has been broken by Charles H. Godfrey who has thrown a lighted bomb, or a bomb he supposes is lighted, into their camp.

A few days ago Mr. Godfrey sent a letter to the board asking them to call a school election to elect an entire new board of education. Mr. Godfrey declared that the present board was illegally elected and quotes an old law which makes it illegal to vote for more than one member on the same ballot. The Australian ballot was used last year and consequently all the members were voted for at once. The letter ends with a threat that unless a new board is elected from top to bottom that he (Mr. Godfrey) will stop the payment of any vouchers which the board of education may issue.

The letter was discussed at the meeting of the board this week and the threat was looked upon as a joke. City Attorney Ellsworth was consulted and he laughed at the old authorities presented by Mr. Godfrey.

The advice or instruction of Mr. Godfrey will not be followed and that gentleman will have an opportunity to make himself unpopular by starting a suit which will cost the tax-payers considerable to defend. It is thought Mr. Godfrey desires to worry the board for the sake of fun.

## MUCH INDIGNATION.

It is Expressed Over a Palladium Sensation.

Last night the Palladium printed a sensational article about peach yellows which can have no effect other than to injure the value of our fruit lands and cripple other industries dependent on the peach trade. The article has caused much bitter comment against the paper which published it. Not only did the article picture the peach orchards in an alarming condition but it went on to say that a local nurseryman had budded young stock from a diseased tree. If such a thing really occurred, why not give the name of the firm who used the diseased buds and not try and injure our large nursery industries? There is no cause for alarm over the peach yellows, say the best growers. Every year several diseased trees are found and destroyed and the same is true this year.

The story that the peach industry is threatened is all bosh.

Letter from Jaquay & Co.

**EDITOR EVENING NEWS:** If Mr. W. Smith referred to us in his article in the Palladium yesterday on yellows, it must have been with reference to the following circumstances, which facts are quite different from those set forth by him as he says "cut from a tree that had yellows."

We cut some buds in Mr. Hicks' orchards near a tree that had yellows. After discovering the tree in question all the buds cut from the other trees were thrown away to avoid any possibility of getting the dread disease. We do not use buds from trees anywhere near yellows and exercise the greatest possible care in this direction. No one can be more particular.

## AMONG THE CRIMINALS.

James Brennan, is detained in the county jail, awaiting his recovery from a spree. He caused considerable disturbance on the streets of St. Joseph yesterday by his maniacal actions.

Fred Harbon was arrested by Chief of Police Stuckey this morning. He was drunk and in his orgies had dismantled the barber shop in the American hotel. He will have his hearing as soon as he gets sober.

Six boys were taken before Justice Baldrey this morning on complaint of bathing in Lake Michigan without suits. They were severely reprimanded and then discharged.

Frank Brown yesterday stationed himself at the corner of Ship and Front streets and solicited passengers for the river steamer Tourist. President Bean of the electric railway didn't like the arrangement for the reason that the Tourist got a few passengers who might have taken a ride over the trolley line. He registered a kick with the officers and Brown was arrested while an agent for the railway was permitted to shout for business at the top of his unmelodious voice without interruption.

The office of R. W. Baker, the optician, is in the Bowman block, Pipestone street. This notice is to save people the unnecessary walk to his residence, which is of daily occurrence.

## DECLARATION FILED.

Mrs. Clara Watt Starts Her Suit Against Frank Johnson.

The declaration in the \$10,000 damage suit brought by Mrs. Clara Watt against Frank B. Johnson, a Stevensville saloonist, for selling liquor to her husband who is alleged to be a habitual drunkard, was filed in the circuit court this morning. Charles N. Sears is retained by the plaintiff as counsel.

A story of the case was given in yesterday's EVENING NEWS.

## BONES IN THE RUINS.

Startling Discovery Made in the Ashes of the Barn Burned on Rick Burke's Premises.

## THEY WERE ON TOP OF THE HAY

Coroner Brown and Health Officer Tutton Made an Examination This Morning.

Word was brought to this city this morning that while engaged in cleaning up the ruins of Rick Burke's barn, which was destroyed by fire last Sunday afternoon, a pile of bones had been found on the top of what had been a hay stack of 20 tons. Accompanying the report was a request for the health officer and coroner of this city to make an investigation.

Immediately after the report came Health Officer Tutton, in company with Coroner Brown drove out to Mr. Burke's farm which is situated about two and one-half miles southeast of this city and found the charred and badly burned bones on top of the hay which was in the barn at the time the fire occurred.

The bones were burned in such a frightful manner that it was almost an utter impossibility to tell whether they had once formed a part of a human being or whether some animal had crawled on top the hay at the time of the fire to get away from the fierce flames. After a close inspection Dr. Tutton came to the conclusion that the bones were not bones of a human being. The theory of the neighbors living near Mr. Burke's is that a tramp crawled into the barn to have a quiet sleep and while sleeping the barn burned, he being unable to get away.

Coroner Brown was seen by THE NEWS and said that had it not been for one peculiar bone found it would have been difficult to tell whether the bones were that of a dog or a man.

## Read and Gompers Look Ahead and Prophecy the Result of the Struggle.

### ORACLES DON'T SEE THINGS ALIKE.

Chicago Operator Declares the Strike on  
Its Last Legs and the Washington Labor  
Leader Says It Will Win in Quick Time  
Now—Read Also Challenges Hatchford to  
See Him for Libel—Day's Doings in the  
Pittsburg District.

Pittsburg, Aug. 27.—Colonel W. P.  
Rend, the Chicago operator who created  
a scene during the recent joint con-  
ference of miners and operators by  
making serious charges against Presi-  
dent Hatchford, returned from Buffalo  
yesterday. When told that his charges  
had created considerable excitement  
and that intimations had been thrown  
out that a libel suit might be entered  
against him Colonel Rend said: "Let  
him sue me. I am ready to prove what  
I charged, and I think it would be a  
good thing for the country if it were  
proved. That St. Louis convention  
could not set itself a better job than to  
investigate this matter. I made Dolan  
an offer to present Hatchford with the  
evidence, but it was not accepted."

Says the Strike Is Lost, Says.  
Speaking of the strike generally Col-  
onel Rend declared it to be now certain  
the miners will lose it. He anticipates  
that within the next few days new men  
will be brought in to start some of the  
pits; but even if this is not done and the  
mines remain idle the men will never get  
such another golden opportunity as they  
have rejected. He says their great mis-  
take was in supposing the operators were  
ready to give in because they  
sought arbitration. He declares that  
all the large lake shippers are firmly  
determined to resist the demands of the  
miners. If the miners had accepted the  
first propositions made by the operators  
at the conference on Friday they would  
have made a substantial gain and would  
have improved permanently their con-  
dition.

Gompers Takes a Different View.  
Washington, Aug. 27.—President  
Gompers, of the American Federation of  
Labor, gave his view of the present coal  
strike situation as follows: "The situ-  
ation as I gather it from the reports  
of our organizers indicates that between  
60 per cent and 65 per cent of the mines  
in West Virginia are now closed down  
completely. A letter I have just received  
from the Cooper and Pocahontas dis-  
trict is brimming with confidence, and  
says that work in that region has been  
reduced one half in the last fortnight  
and predicts a general collapse there  
very soon. So long as the West Vir-  
ginia miners continued operations there  
was, of course, little hope of an abso-  
lute victory for the miners, because  
West Virginia could supply the urgent  
needs of the market. But with the sus-  
pension in West Virginia becoming gen-  
eral, if the miners in the states of Penn-  
sylvania, Ohio, Indiana and Illinois keep  
their ranks unbroken, as I am confident  
they will, the strike must result in an  
absolute victory for the men."

Situation Becoming More Acute.  
"Before Sept. 15 the lake trade must  
be supplied. The situation becomes daily  
more acute and while I hesitate to fix  
a day I believe that the strike will be  
terminated by the end of September and  
that the settlement will be in favor of  
the miners." When Gompers' attention  
was called to the great destitution and  
suffering among the strikers he said  
that the coal operators had taught the  
miners how to suffer. They had been  
drilled in hardships by the operators.  
They would continue to endure their  
trials a little longer in the hope of re-  
lieving their situation permanently in  
the future.

### WOMEN TAKE A HAND IN THE FIGHT

Jeers and Derisive Men Going to Work—  
De Armit Begins Evictions.

Pittsburg, Aug. 27.—The wives and  
daughters of the striking miners at De  
Armit's Oak Hill mines, near Turtle  
Creek, took a prominent part yesterday  
in the demonstration against the work-  
ing miners. Early in the morning a  
dozen or more women gathered at the  
camp, and with flags and banners  
marched along the roads leading to-  
wards the tipple. On their way they  
met a number of miners going to the pit  
and greeted them with yells and jeers.  
They derided them in a manner  
which caused many of them to hang  
their heads in shame. The women say  
they will make a demonstration every  
day hereafter. The strikers claim that  
only fifteen men were at work in the  
Oak Hill mine yesterday and that the  
output Wednesday was only thirty-five  
pit cars, while the company says that  
sixty-five pit cars were mined.

Superintendent S. C. De Armit and  
four deputy sheriffs commenced the work  
of evicting the families of the Plum  
Creek strikers yesterday. The work will  
be kept up until the company has pos-  
session of all its houses. At Bunola the  
mine owners are gradually gaining on  
the strikers. Fourteen men returned to  
work Wednesday and twenty-seven yester-  
day. W. J. Brennan, attorney for the  
miners, is preparing his answer to the  
bill of the New York and Cleveland Gas  
Coal company in the proceedings against  
the miners' officials and strike leaders  
for contempt of court. The bill will de-  
clare that the camp and marching is not  
for the purpose of intimidation or men-  
ace to any one, but merely to indi-  
cate to the men in the mines that the  
miners generally are on a strike and to  
indicate their strength by a show of  
numbers.

Gus Datto, who is in charge of the  
sheriff's deputies at Plum Creek, was  
told yesterday by the sheriff's attorney  
that under the injunction he could not  
interfere with marchers who paraded  
with a band at the head. The only ones  
he can stop are those who are intimidat-  
ing the workmen. A large parade and  
meeting was held at Turtle Creek last  
night without molestation from the de-  
puties. President Dolan addressed a big  
meeting at Clara Ridge, Westmoreland  
county, last night before leaving for  
Pittsburg.

Springfield, Mass., Aug. 27.—Manager  
Fisher, of Bangamon shaft No. 2, called a  
meeting of the miners for last evening  
and fifteen of the thirty men employed at  
the shaft were in attendance. Fisher  
made a proposition to the men present  
to return to work at 40 cents per ton, an  
advance of 7 cents over the present price.  
The men voted to accept the propo-  
sition. The miners' officials did not  
know of the meeting until it was over.

### WALCOTT KNOCKS OUT GEO. GREEN.

Sturdy Little Negro Fighter Wins a Fast  
Mill in the Eighteenth Round.

San Francisco, Aug. 27.—Joe Walcott  
knocked out George Green in the  
eighteenth round last night after one  
of the fastest fights ever seen in San  
Francisco. It was rather one-sided, how-  
ever, Walcott leading in every round  
with perhaps the exception of the sec-  
ond and twelfth. Green showed none  
of his old-time dash and vim, and  
seemed to be utterly at sea at meeting  
and guarding against the sturdy little  
colored man's rushes. Green is essen-  
tially a body fighter, but last night he  
did not land half a dozen good body  
punches during the entire eighteen  
rounds. Walcott took his opponent's  
light left-hand jabs with smiles and  
paid him back with right cross-counters  
on the head and jaw. Green fought  
against time after the sixth round. Sev-  
eral times he was groggy and hung  
to the colored man in the clinches. The  
eighteenth opened up about the same  
as the half dozen preceding rounds.

After about a minute's fighting Wal-  
cott landed a right and left on Green's  
jaw and a clinch followed. In the break  
Walcott brought his right across and  
knocked Green up against the ropes in  
Walcott's corner, helpless, with his  
hands down. With a well-directed right-  
hand blow on the jaw Walcott then  
knocked the Californian through the  
ropes in the negro's corner. Tom  
O'Rourke held Green up with his foot  
on the ring platform until he was  
counted out. Green was carried to his  
dressing room by his seconds.

### IS A GOOD YEAR FOR KANSAS.

Recent Rise in Wheat Makes Her Farmers  
\$15,000,000 Better Off.

Chicago, Aug. 27.—"Wheat has ad-  
vanced about 30 cents a bushel since I  
left home," said Frank P. MacLennan,  
of the Topeka State Journal, yesterday.  
MacLennan left Topeka less than three  
weeks ago and is returning with his  
wife and daughter from a brief vaca-  
tion on the northern lakes, arriving on  
the steamer Manitou from Mackinac.  
"The most careful estimates," continued  
he, "place the Kansas crop of that one  
cereal at 51,000,000 bushels. This ad-  
vance alone in these few days means  
\$15,000,000 more money to the Kansas  
growers on that single product. The  
yield per acre is unusually large, reach-  
ing in some instances more than forty  
bushels to the acre."

"This wheat crop in various localities  
will not only enable the Kansas farmer  
to elevate his mortgage to 'kingdom  
come,' but will give him enough funds  
to more than pay for his land. He  
can now realize more from his wheat  
than the ground would have sold for a  
year ago. This is true in hundreds of  
instances. The thrifty Kansas farmer  
is again in good circumstances. He has  
been going toward that condition for  
several years and the crops this season  
will make him independent."

### Wrenn Is the Tennis Champion.

Newport, R. I., Aug. 27.—In the tennis

HER PLAN POSTPONED

Mrs. Caroline Westcott Romney Who Lived Here Last Summer Going to Klondike

BUT NOT AS A JOURNALIST.

She Will Take a Party of Ladies to the Rich Diggings in the Spring.

CHICAGO, Aug. 27.—[Special to THE EVENING NEWS]—Mrs. Caroline Westcott Romney, of the Manhattan Beach hotel, this city, has given up her project of starting a newspaper at Dawson City this fall as G. B. Swineford, editor of the Alaska Mining Journal, at Juneau, stole a march on her and has gone in with an outfit, from his nearer point of vantage, and she does not think the field will support two papers this winter. She will, however, take out a personally conducted party of ladies to the Klondike by the first steamer to St. Michaels in the spring, a dozen ladies having already signified their desire to join said party; and she will also form a co-operative syndicate, both for business and mining, her long experience in the mining regions of the Rocky mountains, where she spent between eight and nine years engaged in active mining operations for the greater portion of the time, rendering her eminently qualified to take charge of such an expedition.

"In union there is strength," is her motto and by combination she expects to secure the necessary outfit of the party at greatly reduced prices and perhaps transportation as well, chartering a car for, instance, to Seattle, for the goods which they may decide to buy in Canada to save the duties.

By uniting the capital of those who choose to join the business and mining syndicate she expects they will be able to avail themselves of opportunities, which they could not compass single handed.

She anticipates that there will be a great many openings for the employment of women at Dawson City, in the spring, as all able-bodied men will leave for the diggings as soon as practicable, but there will be a large floating population coming and going as it will be the supply town for the entire district as well as the point of debarkation for all bound for the mines, no matter which way they go into the country, which will create a large amount of business there, and women will be called on to do many things which they have never done before, and can command their own prices for their labor.

Mrs. Romney will take along any respectable woman who has the money to go with, and to buy a reasonable amount of supplies. Only those of the party who choose, need join the syndicates, which will divide its forces, some remaining in Dawson City and conducting business enterprises there, such as running boarding and lodging houses, restaurants, laundries, dry-goods shops, dress-making establishments, etc., while others will go directly to the mines, where they will conduct similar operations and even engage in actual mining, after claims are secured. Prospectors will be grub-staked, and the profits of all the various enterprises divided pro-rata.

DESERTS HIS FAMILY.

Timothy Heney Becomes Crazy by the Klondike Stories.

CASSOPOLIS, Aug. 27.—When the stories of the fabulous gold finds in Alaska first became current in Cassopolis, Timothy Heney became badly innoculated with the fever, and proposed to his wife to throw up his job here, and go to Klondike and make a fortune for them all. Her health is very poor, and she seriously objected saying they were living comfortably and happily, and she had no desire to be rich. In her state of health she might not live until he returned, and she preferred to live in comfort and enjoy the society of her husband and children while she did live, and let others chase the golden bubble.

Three or four weeks ago he was granted a vacation, and with his family made a visit to Jackson, his former home, where he owned some property. Upon their return home, Mrs. Heney went to Michigan City to visit over Sunday, and upon her return home, was astonished to receive the following letter:

CHICAGO, Aug. 16, 1897.

DEAR MAGGIE:

My dear wife and children, I leave here this morning for the west, to learn something about gold mining, and by next spring, if God is willing, I will go to Alaska. I made the deed out to you, you will find it with the other deed; you can raise two or three hundred dollars on it that will do you until I can send money to you. You can hire some one to help pack up the goods, and rent some room in Jackson, or live in the house on Page avenue, and send the children to school; or you could live at Michigan City with Dan, and send your children to school there. This is the only way I see out of night work. It seems a terrible thing to be away from you and the children. It seems as if it would break my mind, but I hope it is for good. I am determined to remain true to my wife and children, and get them to that place where they are living, and make a better home for them. I will take good care of the house. The wife is ready to

go. I will write often. Good bye, with love to you and Tressa and Dennis. Pray for me. From your ever loving husband,  
TIMOTHY HENEY.

VALUABLE INVENTION.

Frank F. Snow Receives a Patent for it.

Frank F. Snow is the owner of a very valuable invention, for which a patent was issued Tuesday and was received by him Thursday. It is a vaporizing carburetor and air generator for engines using gas, gasoline or acetylene. Mr. Snow has been working on the invention for years and considers it an important attachment, one that will make the use of gas engines practicable anywhere. He has been offered a large sum for the invention by Edgar Tate & Co., of New York City, who make a business of dealing in patents.

THE NEW RAILROAD.

Yesterday Trains Were Operated on Schedule Time.

Yesterday was the first day of the operation of trains by the Milwaukee, Benton Harbor & Columbus on schedule time. The train leaving Berrien Springs at 8:30 yesterday morning carried 60 passengers and No. 1 south leaving here at 7:15 carried 1,000 pounds of freight, the same being a consignment of goods from Kidd, Dater & company's wholesale grocery.

Work on the grade between Berrien Springs and Buchanan is progressing with all possible haste and within 10 days the company expects to be running trains over that end of the line. The track is all laid, but the bridges and trestles which were built by the promoters of the narrow gauge are not considered safe and these are all being filled in with dirt and sand.

The freight traffic on the new road will no doubt be considerable, as much of the freight which goes by boat up the river during the summer will be shipped by the new rail route, the rates being no higher than the water rates, and the transit being very much more rapid.

A QUIET MEETING.

Board of Public Works Met in Regular Session Last Night.

The board of public works met in its room at the water works station last night. Those of the board present were Miller, George and Robbins. In absence of Chairman Robinson W. L. George was made temporary chairman. The regular monthly bills were recommended paid and the city engineer's report for the month of July was read and accepted.

Owing to the fact that it is dark during the last half of the lawn sprinkling hour in the evening, Mr. Miller made a motion to change the time of sprinkling from 6:30 to 7:30 to from 6 to 7 o'clock. After much discussion, in which Mr. Robbins said that while the change would benefit some people yet a great many men did not quit their daily labor until 6 o'clock and when they got home they wanted supper and would have no time to sprinkle, it was finally decided to leave the hours as they were and if the general public wanted them changed it must so petition the board.

Owing to the deplorable condition of the sidewalk at the corner of Territorial and Water streets the drinking fountain situated thereon could not be made to stay in its place. The clerk was ordered to notify the street commissioner and have the walk put in proper condition.

A pleasing feature of the meeting of the board is that what ever business there is on hand is brought up in a business like manner and disposed of in the same way.

DYER IS CHAMPION.

He Holds the Medal for Five-mile Riding.

The most exciting feature of the amusements provided by the Maccabees in St. Joseph yesterday afternoon was the bicycle races. The county championship was won by George Dyer and Benton Harbor enjoys the distinction of being the home of the champion five-mile bicycle rider of the county. Dyer pedaled off the five miles in 17 minutes and 28 seconds.

The initial event of the races was a one-fourth mile spurt of three heats. The starters were George Dyer, G. E. Hollis, C. Rutkoskie, W. H. Thomas, Thomas McKay, L. Jones, of Buchanan, and James Ralston. The race was won by the Buchanan rider, L. Jones. Hollis finished second and Rutkoskie third. The time by heats was 31 4-5, 32 and 32. The first prize was a bicycle suit, second century lamp and third sweater.

The five-mile handicap event for the county championship was the most notable race of the program. The following riders lined up for the event: George Dyer, C. Rutkoskie, C. H. Hollister, H. E. Woodward, H. Vaughan, Thomas McKay, E. Jurgensen, L. Jones and M. F. White. Dyer was the only scratch man in the group, the remainder having an advantage of from 30 seconds to 1:30. The men started at Ship street on State and the course took them over State and Jones street, then Niles avenue to the town hall, turning from there onto a cross road intersecting with the Lake Shore drive over which they returned, finishing in front of the residence of E. F. Platt. The men crossed the tape in the following order: Vaughn, Dyer, Jurgensen, McKay, Woodward, Hollister.

The race was won by Vaughn but as it was understood that the championship medal was to go to the rider making the best time it was given to Dyer who covered the distance in 17:28. White, Jones and Rutkoski did not finish. The latter broke his chain on the home stretch three-fourths of a mile from the tape and was hurled with fearful violence to the ground, falling on his chest and stomach. He was conveyed to the Lake View hotel in a carriage and Dr. Scott summoned. The injured man seemed to be suffering terrible pain and it was feared that fatal internal injuries had resulted. He bore no outward indications of injury. He was later taken home and although confined to his bed his physician gives out that his injuries are not as serious as at first anticipated and that he will recover.

The gold medal won by Dyer is valued at \$18. On one side is engraved the words, "Champion of Berrien County," and the other side contains the following: "August 26, 1897, St. Joseph, Mich., Five-mile Handicap."

The Japanese Student Cook.

He was a Japanese student, Shasuka, fellow in chemistry of the Imperial university of Tokyo, who came to this kitchen to learn general housework. He answered all questions as to his capabilities with, "I do not know, but I wish to learn." His interest in the culinary processes was great. His was cheek flushed and his languid eye kindled as the mistress initiated him into the applied principles of food chemistry. He did not know how to make bread, but he "wished to learn." The philosophy of the cooking range interested him deeply, but of its working he had all to learn. The dish washing and serving appealed less to his scholarly instincts, but still he "wished to learn."

Mistress was scientific, and with so promising a pupil should have got on famously. The consciousness that her appliances were not all that a scientist could desire and the humiliation of disclosing to the distinguished stranger her makeshift methods and expediences proved painful; also it was taxing to teach that in which experience alone had given her skill. She thought of several really good inventions for reducing the work to a system which had been thrown aside because Ellen would not bother with them, and the possibility of working out the problem intelligently with Shasuka as associate took the form of desire.

Meanwhile the family must be fed and the house made comfortable. There was little time for experimenting. Poor Shasuka fell into a treadmill of drudgery little befitting his personality, and the mistress, finding the new role too much, fell a prey to nervous prostration. So a brilliant opportunity was lost, and Shasuka went, still wishing to learn, let us hope.---

about that I shall hope to break the ice. I will let him see that, however he may have fallen out with poor mamma, I intend to be friendly."

During tea Millie told him numerous anecdotes about her life at Francis Hammann's, after which he retaliated in the gayest fashion with stories of Oxford vivacity. Thus they passed the time away until the first dinner gong sounded.

This reminded Millie of the flight 'of hours.

"I had forgotten all about mamma. When will she be here?" she exclaimed. "Possibly she is blocked on the line," murmured Mr. Macintosh. "At any rate, you had better dine here while you wait for her."

But Mr. Macintosh's careless reference to her mother jarred on her and damped her spirits. Things were evidently very bad indeed. His indifference to his wife's whereabouts was positively shameful.

During dinner, therefore, she was quieter, so Mr. Macintosh had to do the lion's share of the talking. And so well did he perform his task that Millie had to confess that her stepdada was a very charming young man and that it was a thousand pities he could not get on with

chair, Millie collected herself with a sob, and, advancing, held out a little gleamed paw.

"How do you do, Mr. Macintosh?" she said.

"Thank you," he replied, after a moment's hesitation, "I am very well. Then, as Millie continued standing, he added, handing her a chair, "Won't you sit down?"

Millie seated herself.

"Er—I expected to find mamma here," said the young lady, after a awkward silence of quite a minute's duration.

"Oh, I see," replied Mr. Macintosh. "Then an appalling idea flashed through her brain. Her mother and Mr. Macintosh had discovered the mistake already. In one short week they had fallen out. They even traveled separately. Doubtless he had made inquiries for her money, and her mother had answered this.

"But never, not say too much about this until I know exactly how things stand," Millie decided. "I may call on them sometimes."

"Dear and awkward people," Mr. Macintosh murmured the words almost under his breath.

**Yellowstone Lake.**

"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,744 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turricles, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of the unknown, untrodden wilderness. Such are Colter peak and Mount Doane."

The above is taken from "Wonderland '97," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of all cents in stamps by CHAS. S. FARR, Gen'l Passenger Agent, St. Paul, Minn.

Grace Herr, of Chicago, a sister of John H. Herr of this city, was last evening married to Ernest W. Eggers, one of the wealthiest grocers in Kenosha, South Chicago, the ceremony being performed by Rev. W. P. French in the home of Miss Herr's sister, Mrs. W. H. DeLong, 190 Fifty-fourth street, Chicago.

No ostentation attended the wedding. It was quiet and impressive. The Methodist Episcopal ring service was adopted. Master Curtis Hostetter, acting as page, preceded the groom to an alcove in the parlor where the ceremony was performed, carrying the ring on a silver tray. The wedding march was played by a full orchestra.

The home was beautified by a rich display of palms, amilax and American beauties. After the service a wedding supper was served in which 75 friends participated. Mr. and Mrs. Eggers left at once on a tour of the east. They will visit Niagara Falls and then descend the Hudson to New York City, being absent two weeks.

Mrs. Eggers is known in Benton Harbor society, having spent several seasons with her brother here. She is a very intelligent young lady and has charming manners. Her husband owns one of the largest grocery stores on the south side.

FRANK R. HALE, agent.

HOLLAND, Aug. 27.—One of the best addresses at the Holland semi-centennial was that of Chief Pokagon which was couched in simple language. He said:

Our people who sleep beneath your soil came here from the coast of the Atlantic. They were pioneers in their time, as you are today. When they first entered these woodland plains they said in their hearts: "We are surely on the borderland of the happy hunting grounds beyond."

Here our people built their wigwams, and their children played under the green pavilion of the mighty forest, as happy as your children now play in the open field, or on your decorated lawns. I speak of this not complainingly, for I have always taught my people not to sigh for years long gone by, nor pass again over the bloody trails their fathers trod. I fully realize that, as pioneers of this land, you had mountains of difficulty to overcome, of which our race knew not.

The same forest that frowned on you, smiled upon us; the same forest that was agony and death to you, was our bulwark and defense; the same forests you have cut down and destroyed, we loved, and our great fear was that the white man, in his advance westward, would mar or destroy it. I realize fully how hard you labored, day in and day out, year in and year out, to reclaim your farms from the unbroken forests until your labors were crowned with success, and the wilderness budded and blossomed as the rose.

Fathers and mothers! How those names! and while I have stood among strangers my heart has continually whispered in my ears, saying, "Pokagon, your father and mother a century ago passed and repassed this very spot, along their winding trails."

I have stood as a peacemaker between your people and my people, trying to soothe the prejudices of the two races toward each other. Yes, without bow or gun I have stood as one standing between two armies advancing toward each other for a fight, receiving a thousand wounds from your people and my own people. In conclusion permit me to say, I rejoice with the joy of childhood that you have granted "a son of the forest" a right to speak to you.

## INJUNCTION THREAT.

Charles H. Godfrey Interprets the Law to the Board of Education.

### HE WANTS A NEW BOARD

And Claims That Every Member in the Present Board Were Illegally Elected.

The monotony of the lives of the members of the board of education of this city has been broken by Charles H. Godfrey who has thrown a lighted bomb, or a bomb he supposes is lighted, into their camp.

A few days ago Mr. Godfrey sent a letter to the board asking them to call a school election to elect an entire new board of education. Mr. Godfrey declared that the present board was illegally elected and quotes an old law which makes it illegal to vote for more than one member on the same ballot. The Australian ballot was used last year and consequently all the members were voted for at once. The letter ends with a threat that unless a new board is elected from top to bottom that he (Mr. Godfrey) will stop the payment of any vouchers which the board of education may issue.

The letter was discussed at the meeting of the board this week and the threat was looked upon as a joke. City Attorney Ellsworth was consulted and he laughed at the old authorities presented by Mr. Godfrey.

The advice or instruction of Mr. Godfrey will not be followed and that gentleman will have an opportunity to make himself unpopular by starting a suit which will cost the tax-payers considerable to defend. It is thought Mr. Godfrey desires to worry the board for the sake of fun.

### MUCH INDIGNATION.

It is Expressed Over a Palladium Sensation.

Last night the Palladium printed a sensational article about peach yellows which can have no effect other than to injure the value of our fruit lands and cripple other industries dependent on the peach trade. The article has caused much bitter comment against the paper which published it. Not only did the article picture the peach orchards in an alarming condition but it went on to say that a local nurseryman had budded young stock from a diseased tree. If such a thing really occurred, why not give the name of the firm who used the diseased buds and not try and injure our large nursery industries?

There is no cause for alarm over the peach yellows, say the best growers. Every year several diseased trees are found and destroyed and the same is true this year. The story that the peach industry is threatened is all bosh.

Letter from Jaquay & Co.

EDITOR EVENING NEWS: If Mr. W. Smith referred to us in his article in the Palladium yesterday on yellows, it must have been with reference to the following circumstances, which facts are quite different from those set forth by him as he says "cut from a tree that had yellows."

We cut some buds in Mr. Hicks' orchards near a tree that had yellows. After discovering the tree in question all the buds cut from the other trees were thrown away to avoid any possibility of getting the dread disease. We do not use buds from trees anywhere near yellows and exercise the greatest possible care in this direction. No one can be more particular. IRVING JAQUAY & CO.

### AMONG THE CRIMINALS.

James Brennan, is detained in the county jail, awaiting his recovery from a spree. He caused considerable disturbance on the streets of St. Joseph yesterday by his maniacal actions.

Fred Harbon was arrested by Chief of Police Stuckey this morning. He was drunk and in his orgies had dismantled the barber shop in the American hotel. He will have his hearing as soon as he gets sober.

Six boys were taken before Justice Baldrey this morning on complaint of bathing in Lake Michigan without suits. They were severely reprimanded and then discharged.

Frank Brown yesterday stationed himself at the corner of Ship and Front streets and solicited passengers for the river steamer Tourist. President Bean of the electric railway didn't like the arrangement for the reason that the Tourist got a few passengers who might have taken a ride over the trolley line. He registered a kick with the officers and Brown was arrested while an agent for the railway was permitted to shout for business at the top of his unmelodious voice without interruption.

The office of R. W. Baker, the optician, is in the Bowman block, Pipestone street. This notice is to save people the unnecessary walk to his residence, which is of daily occurrence.

## BONES IN THE RUINS.

Startling Discovery Made in the Ashes of the Barn Burned on Rick Burke's Premises.

### THEY WERE ON TOP OF THE HAY

Coroner Brown and Health Officer Tutton Made an Examination This Morning.

Word was brought to this city this morning that while engaged in cleaning up the ruins of Rick Burke's barn, which was destroyed by fire last Sunday afternoon, a pile of bones had been found on the top of what had been a hay stack of 20 tons. Accompanying the report was a request for the health officer and coroner of this city to make an investigation.

Immediately after the report came Health Officer Tutton, in company with Coroner Brown drove out to Mr. Burke's farm which is situated about two and one-half miles southeast of this city and found the charred and badly burned bones on top of the hay which was in the barn at the time the fire occurred.

The bones were burned in such a frightful manner that it was almost an utter impossibility to tell whether they had once formed a part of a human being or whether some animal had crawled on top the hay at the time of the fire to get away from the fierce flames. After a close inspection Dr. Tutton came to the conclusion that the bones were not bones of a human being. The theory of the neighbors living near Mr. Burke's is that a tramp crawled into the barn to have a quiet sleep and while sleeping the barn burned, he being unable to get away.

Coroner Brown was seen by THE NEWS and said that had it not been for one peculiar bone found it would have been difficult to tell whether the bones were that of a dog or a man.

## Rend and Compers Look Ahead and Prophecy the Result of the Struggle.

### ORACLES DON'T SEE THINGS ALIKE.

Chicago Operator Declares the Strike on  
Its Last Legs and the Washington Labor  
Leader Says It Will Win in Quick Time  
Now. Rend Also Challenges Hatchford to  
Sue Him for Libel—Day's Doings in the  
Pittsburg District.

Pittsburg, Aug. 27.—Colonel W. P.  
Rend, the Chicago operator who created  
a scene during the recent joint con-  
ference of miners and operators by  
making serious charges against Presi-  
dent Hatchford, returned from Buffalo  
yesterday. When told that his charges  
had created considerable excitement  
and that intimations had been thrown  
out that a libel suit might be entered  
against him Colonel Rend said: "Let  
him sue me. I am ready to prove what  
I charged, and I think it would be a  
good thing for the country if it were  
proved. That St. Louis convention  
could not set itself a better job than to  
investigate this matter. I made Dolan  
an offer to present Hatchford with the  
evidence, but it was not accepted."

**Says the Strike Is Lost, Sure.**  
Speaking of the strike generally Col-  
onel Rend declared it to be now certain  
the miners will lose it. He anticipates  
that within the next few days new men  
will be brought in to start some of the  
pits; but even if this is not done and the  
mines remain idle the men will never get  
such another golden opportunity as they  
have rejected. He says their great mis-  
take was in supposing the operators  
were ready to give in because they  
sought arbitration. He declares that  
all the large lake shippers are firmly  
determined to resist the demands of the  
miners. If the miners had accepted the  
first propositions made by the operators  
at the conference on Friday they would  
have made a substantial gain and would  
have improved permanently their con-  
dition.

**Gompers Takes a Different View.**  
Washington, Aug. 27.—President  
Gompers, of the American Federation of  
Labor, gave his view of the present coal  
strike situation as follows: "The situ-  
ation as I gather it from the reports  
of our organizers indicates that between  
60 per cent and 65 per cent of the mines  
in West Virginia are now closed down  
completely. A letter I have just received  
from the Cooper and Pocahontas dis-  
trict is brimming with confidence, and  
says that work in that region has been  
reduced one half in the last fortnight  
and predicts a general collapse there  
very soon. So long as the West Vir-  
ginia miners continued operations there  
was, of course, little hopes of an abso-  
lute victory for the miners, because  
West Virginia could supply the urgent  
needs of the market. But with the sus-  
pension in West Virginia becoming gen-  
eral, if the miners in the states of Penn-  
sylvania, Ohio, Indiana and Illinois keep  
their ranks unbroken, as I am confident  
they will, the strike must result in an  
absolute victory for the men."

**Situation Becoming More Acute.**  
"Before Sept. 15 the lake trade must  
be supplied. The situation becomes daily  
more acute and while I hesitate to fix  
a day I believe that the strike will be  
terminated by the end of September and  
that the settlement will be in favor of  
the miners." When Gompers' attention  
was called to the great destitution and  
suffering among the strikers he said  
that the coal operators had taught the  
miners how to suffer. They had been  
drilled in hardships by the operators.  
They would continue to endure their  
trials a little longer in the hope of re-  
lieving their situation permanently in  
the future.

### WOMEN TAKE A HAND IN THE FIGHT

**Jeer and Deride the Men Going to Work—  
De Armit Begins Evictions.**  
Pittsburg, Aug. 27.—The wives and  
daughters of the striking miners at De  
Armit's Oak Hill mines, near Turtle  
Creek, took a prominent part yesterday  
in the demonstration against the work-  
ing miners. Early in the morning a  
dozen or more women gathered at the  
camp, and with flags and banners  
marched along the roads leading to-  
wards the tipple. On their way they  
met a number of miners going to the pit  
and greeted them with yells and jeers.  
They derided the miners who were work-  
ing and ridiculed them in a manner  
which caused many of them to hang  
their heads in shame. The women say  
they will make a demonstration every  
day hereafter. The strikers claim that  
only fifteen men were at work in the  
Oak Hill mine yesterday and that the  
output Wednesday was only thirty-five  
pit cars, while the company says that  
sixty-five pit cars were mined.  
Superintendent S. C. De Armit and  
four deputy sheriffs commenced the work  
of evicting the families of the Plum  
Creek strikers yesterday. The work will  
be kept up until the company has pos-  
session of all its houses. At Bunola the  
mine owners are gradually gaining on  
the strikers. Fourteen men returned to  
work Wednesday and twenty-seven yester-  
day. W. J. Brennan, attorney for the  
miners, is preparing his answer to the  
bill of the New York and Cleveland Gas  
Coal company in the proceedings against  
the miners' officials and strike leaders  
for contempt of court. The bill will de-  
clare that the camp and marching is not  
for the purpose of intimidation or men-  
ace to any one, but merely to indi-  
cate to the men in the mines that the  
miners generally are on a strike and to  
indicate their strength by a show of  
numbers.  
Gus Datto, who is in charge of the  
sheriff's deputies at Plum Creek, was  
told yesterday by the sheriff's attorney  
that under the injunction he could not  
interfere with marchers who paraded  
with a band at the head. The only ones  
he can stop are those who are intimidat-  
ing the workmen. A large parade and  
meeting was held at Turtle Creek last  
night without molestation from the op-  
erators. President Datto addressed the

**Sturdy Little Negro Fighter Wins a Fast  
Mill in the Eighteenth Round.**  
San Francisco, Aug. 27.—Joe Walcott  
knocked out George Green in the  
eighteenth round last night after one  
of the fastest fights ever seen in San  
Francisco. It was rather one-sided, how-  
ever, Walcott leading in every round  
with perhaps the exception of the sec-  
ond and twelfth. Green showed none  
of his old-time dash and vim, and  
seemed to be utterly at sea at meeting  
and guarding against the sturdy little  
colored man's rushes. Green is essentially  
a body fighter, but last night he  
did not land half a dozen good body  
punches during the entire eighteen  
rounds. Walcott took his opponent's  
light left-hand jabs with smiles and  
paid him back with right cross-counters  
on the head and jaw. Green fought  
against time after the sixth round. Sev-  
eral times he was groggy and hung  
to the colored man in the clinches. The  
eighteenth opened up about the same  
as the half dozen preceding rounds.

**IS A GOOD YEAR FOR KANSAS.**  
Recent Rise in Wheat Makes Her Farmers  
-\$15,000,000 Better Off.  
Chicago, Aug. 27.—"Wheat has ad-  
vanced about 30 cents a bushel since I  
left home," said Frank P. MacLennan,  
of the Topeka State Journal, yesterday.  
MacLennan left Topeka less than three  
weeks ago and is returning with his  
wife and daughter from a brief vaca-  
tion on the northern lakes, arriving on  
the steamer Manitou from Mackinac.  
"The most careful estimates," continued  
he, "place the Kansas crop of that one  
cereal at 51,000,000 bushels. This ad-  
vance alone in these few days means  
\$15,000,000 more money to the Kansas  
growers on that single product. The  
yield per acre is unusually large, reach-  
ing in some instances more than forty  
bushels to the acre.  
"This wheat crop in various localities  
will not only enable the Kansas farmer  
to elevate his mortgage to 'kingdom  
come,' but will give him enough funds  
to more than pay for his land. He  
can now realize more from his wheat  
than the ground would have sold for a  
year ago. This is true in hundreds of  
instances. The thrifty Kansas farmer  
is again in good circumstances. He has  
been going toward that condition for  
several years and the crops this season  
will make him independent."

## HER PLAN POSTPONED

Mrs. Caroline Westcott Romney Who Lived Here Last Summer Going to Klondike

BUT NOT AS A JOURNALIST.

She Will Take a Party of Ladies to the Rich Diggings in the Spring.

CHICAGO, Aug. 27.—[Special to THE EVENING NEWS].—Mrs. Caroline Westcott Romney, of the Manhattan Beach hotel, this city, has given up her project of starting a newspaper at Dawson City this fall as G. B. Swineford, editor of the Alaska Mining Journal, at Juneau, stole a march on her and has gone in with an outfit, from his nearer point of vantage, and she does not think the field will support two papers this winter. She will, however, take out a personally conducted party of ladies to the Klondike by the first steamer to St. Michaels in the spring, a dozen ladies having already signified their desire to join said party; and she will also form a co-operative syndicate, both for business and mining, her long experience in the mining regions of the Rocky mountains, where she spent between eight and nine years engaged in active mining operations for the greater portion of the time, rendering her eminently qualified to take charge of such an expedition.

"In union there is strength," is her motto and by combination she expects to secure the necessary outfits of the party at greatly reduced prices and perhaps transportation as well, chartering a car for instance, to Seattle, for the goods which they may decide to buy in Canada to save the duties.

By uniting the capital of those who choose to join the business and mining syndicate she expects they will be able to avail themselves of opportunities, which they could not compass single handed.

She anticipates that there will be a great many openings for the employment of women at Dawson City, in the spring, as all able-bodied men will leave for the diggings as soon as practicable, but there will be a large floating population coming and going as it will be the supply town for the entire district as well as the point of debarkation for all bound for the mines, no matter which way they go into the country, which will create a large amount of business there, and women will be called on to do many things which they have never done before, and can command their own prices for their labor.

Mrs. Romney will take along any respectable woman who has the money to go with, and to buy a reasonable amount of supplies. Only those of the party who choose, need join the syndicates, which will divide its forces, some remaining in Dawson City and conducting business enterprises there, such as running boarding and lodging houses, restaurants, laundries, dry-goods shops, dress-making establishments, etc., while others will go directly to the mines, where they will conduct similar operations and even engage in actual mining, after claims are secured. Prospectors will be grub-staked, and the profits of all the various enterprises divided pro-rata.

## DESERTS HIS FAMILY.

Timothy Heney Becomes Crazy by the Klondike Stories.

CASPOLIS, Aug. 27.—When the stories of the fabulous gold finds in Alaska first became current in Casopolis, Timothy Heney became badly incoordinated with the fever, and proposed to his wife to throw up his job here, and go to Klondike and make a fortune for them all. Her health is very poor, and she seriously objected saying they were living comfortably and happily, and she had no desire to be rich. In her state of health she might not live until he returned, and she preferred to live in comfort and enjoy the society of her husband and children while she did live, and let others chase the golden bubble.

Three or four weeks ago he was granted a vacation, and with his family made a visit to Jackson, his former home, where he owned some property. Upon their return home, Mrs. Heney went to Michigan City to visit over Sunday, and upon her return home, was astonished to receive the following letter:

CHICAGO, Aug. 16, 1897.

DEAR MAGGIE:

My dear wife and children, I leave here this morning for the west, to learn something about gold mining, and by next spring, if God is willing, I will go to Alaska. I made the deed out to you, you will find it with the other deed; you can raise two or three hundred dollars on it that will do you until I can send money to you. You can hire some one to help pack up the goods, and rent some room in Jackson, or live in the house on Page avenue, and send the children to school; or you could live at Michigan City with Dan, and send your children to school there. This is the only way I see out of night work. It seems a terrible thing to be away from you and the children. It seems as if it would rack my mind, but I hope it is for good luck. I am determined to remain true to my wife and children, and get them to that place where they are living, and make a better home for them. I hope you will take good care of them. The train leaves at 10 o'clock.

go. I will write often. Good bye, with love to you and Tressa and Dennis. Pray for me. From your ever loving husband,  
TIMOTHY HENEY.

## VALUABLE INVENTION.

Frank F. Snow Receives a Patent for it.

Frank F. Snow is the owner of a very valuable invention, for which a patent was issued Tuesday and was received by him Thursday. It is a vaporizing carburetor and air generator for engines using gas, gasoline or acetylene. Mr. Snow has been working on the invention for years and considers it an important attachment, one that will make the use of gas engines practicable anywhere. He has been offered a large sum for the invention by Edgar Tate & Co., of New York City, who make a business of dealing in patents.

## THE NEW RAILROAD.

Yesterday Trains Were Operated on Schedule Time.

Yesterday was the first day of the operation of trains by the Milwaukee, Benton Harbor & Columbus on schedule time. The train leaving Berrien Springs at 8:30 yesterday morning carried 60 passengers and No. 1 south leaving here at 7:15 carried 1,000 pounds of freight, the same being a consignment of goods from Kidd, Dater & company's wholesale grocery.

Work on the grade between Berrien Springs and Buchanan is progressing with all possible haste and within 10 days the company expects to be running trains over that end of the line. The track is all laid, but the bridges and trestles which were built by the promoters of the narrow gauge are not considered safe and these are all being filled in with dirt and sand.

The freight traffic on the new road will no doubt be considerable, as much of the freight which goes by boat up the river during the summer will be shipped by the new rail route, the rates being no higher than the water rates, and the transit being very much more rapid.

## A QUIET MEETING.

Board of Public Works Met in Regular Session Last Night.

The board of public works met in its room at the water works station last night. Those of the board present were Miller, George and Robbins. In absence of Chairman Robinson W. L. George was made temporary chairman. The regular monthly bills were recommended paid and the city engineer's report for the month of July was read and accepted.

Owing to the fact that it is dark during the last half of the lawn sprinkling hour in the evening, Mr. Miller made a motion to change the time of sprinkling from 6:30 to 7:30 to from 6 to 7 o'clock. After much discussion, in which Mr. Robbins said that while the change would benefit some people yet a great many men did not quit their daily labor until 6 o'clock and when they got home they wanted supper and would have no time to sprinkle, it was finally decided to leave the hours as they were and if the general public wanted them changed it must so petition the board.

Owing to the deplorable condition of the sidewalk at the corner of Territorial and Water streets the drinking fountain situated thereon could not be made to stay in its place. The clerk was ordered to notify the street commissioner and have the walk put in proper condition.

A pleasing feature of the meeting of the board is that what ever business there is on hand is brought up in a business like manner and disposed of in the same way.

## DYER IS CHAMPION.

He Holds the Medal for Five-mile Riding.

The most exciting feature of the amusements provided by the Maccabees in St. Joseph yesterday afternoon was the bicycle races. The county championship was won by George Dyer and Benton Harbor enjoys the distinction of being the home of the champion five-mile bicycle rider of the county. Dyer pedaled off the five miles in 17 minutes and 28 seconds.

The initial event of the races was a one-fourth mile spurt of three heats. The starters were George Dyer, G. E. Hollis, C. Rutkoskie, W. H. Thomas, Thomas McKay, L. Jones, of Buchanan, and James Ralston. The race was won by the Buchanan rider, L. Jones. Hollis finished second and Rutkoskie third. The time by heats was 31 4-5, 32 and 32 1-2. The first prize was a bicycle suit, second century lamp and third sweater.

The five-mile handicap event for the county championship was the most notable race of the program. The following riders lined up for the event: George Dyer, C. Rutkoskie, C. H. Hollister, H. E. Woodward, H. Vaughan, Thomas McKay, E. Jurgensen, L. Jones and M. F. White. Dyer was the only scratch man in the group, the remainder having an advantage of from 30 seconds to 1:30. The men started at Shipstreet on State and the course took them over State and Jones street, then Niles avenue to the town hall, turning from there onto a cross road intersecting with the Lake Shore drive over which they returned, finishing in front of the residence of E. F. Platt. The men crossed the tape in the following order: Vaughn, Dyer, Jurgensen, McKay, Woodward, Hollister. The race was won by Vaughn but as it was understood that the championship medal was to go to the rider making the best time it was given to Dyer who covered the distance in 17:28. White, Jones and Rutkoski did not finish. The latter broke his chain on the home stretch three-fourths of a mile from the tape and was hurled with fearful violence to the ground, falling on his chest and stomach. He was conveyed to the Lake View hotel in a carriage and Dr. Scott summoned.

The injured man seemed to be suffering terrible pain and it was feared that fatal internal injuries had resulted. He bore no outward indications of injury. He was later taken home and although confined to his bed his physician gives out that his injuries are not as serious as at first anticipated and that he will recover.

The gold medal won by Dyer is valued at \$18. On one side is engraved the words, "Champion of Berrien County," and the other side contains the following: "August 26, 1897, St. Joseph, Mich., Five-mile Handicap."

## The Japanese Student Cook.

He was a Japanese student, Shasuka, fellow in chemistry of the Imperial university of Tokyo, who came to this kitchen to learn general housework. He answered all questions as to his capabilities with, "I do not know, but I wish to learn." His interest in the culinary processes was great. His wan cheek flushed and his languid eye kindled as the mistress initiated him into the applied principles of food chemistry. He did not know how to make bread, but he "wished to learn." The philosophy of the cooking range interested him deeply, but of its working he had all to learn. The dish washing and serving appealed less to his scholarly instincts, but still he "wished to learn."

Mistress was scientific, and with so promising a pupil should have got on famously. The consciousness that her appliances were not all that a scientist could desire and the humiliation of disclosing to the distinguished stranger her makeshift methods and expediences proved painful; also it was taxing to teach that in which experience alone had given her skill. She thought of several really good inventions for reducing the work to a system which had been thrown aside because Ellen would not bother with them, and the possibility of working out the problem intelligently with Shasuka as associate took the form of desire.

Meanwhile the family must be fed and the house made comfortable. There was little time for experimenting. Poor Shasuka fell into a treadmill of drudgery little befitting his personality, and the mistress, finding the new role too much, fell a prey to nervous prostration. So a brilliant opportunity was lost, and Shasuka went, still wishing to learn, let us hope.—American Kitchen Magazine.

TWIN CITY TELEPHONE 172.  
FRIDAY, AUGUST 27, 1907.

It has been recently noticed that the Hon. F. M. Van Horn has refrained from delivering curbstone orations on wheat.

Nor one of the crowd of Maccabees in St. Joseph yesterday checked his grip as baggage but he gave it to his mother knight.

When the Bell telephone company begins paying taxes in Benton Harbor, Benton Harbor will begin paying attention to its request for a franchise.

It has been stated that a very popular road has been paved with good intentions. If a certain brave colonel would use the same paving material between his car tracks it would be an improvement over the present condition. Good intentions are cheap and the colonel ought to invest.

The Bell telephone company claims in the columns of a recently acquired organ that it does not wish to ruin the local telephone company but it merely desires to remain here and give our people the advantage of its state and inter-state lines. At the present pace of the Bell company in less than two weeks Peter Cooper and all the other old philanthropists will be forgotten.

MICHIGAN'S newspaper men regret the announcement that W. H. Turner has resigned as general manager of the Grand Rapids Press to assume the management of the Chicago Journal. The hope is that Mr. Turner will return. Some years ago George De Haven gave up his position as general passenger agent of the Chicago & West Michigan road and left Grand Rapids to become editor of a Chicago paper. A few months later found Mr. De Haven back in Grand Rapids. The selfish wish of Michigan is that Mr. Turner may follow Mr. De Haven's example.

Yellowstone Lake.  
"There is an individuality about lakes. Perhaps the most striking thing about Yellowstone lake is its high altitude. It is up among the mountains and clouds in Yellowstone park nearly a mile and a half—7,741 feet—above where the sportive summer girl sits on the beach at the Atlantic ocean while the lazy wavelets ripple about her dainty toes. But as high as it is the mountains rise higher still by thousands of feet. In a solemn, owl-like fashion they blink down at the lake, and the lake blinks back at them. These mountains are well defined peaks, and cones, and turrets, and nearly all are named. Some of them are in this way redolent of the old explorers, the men who first braved the perils and difficulties of an unknown, untrodden wilderness. Such are Colter peak and Mount Doane."  
The above is taken from "Wonderland '07," a beautiful new Tourist book published by the Northern Pacific railway. It will be mailed to any address upon receipt of six cents in stamps by CHAS. S. FEE, Gen'l Pass. agent, St. Paul, Minn.

## MISS GRACE HERR MARRIED.

She becomes the Wife of a Wealthy Chicago Grocer.

Miss Grace Herr, of Chicago, a sister of John H. Herr of this city, was last evening married to Ernest W. Eggers, one of the wealthiest grocers in Kenwood, South Chicago, the ceremony being performed by Rev. W. P. French at the home of Miss Herr's sister, Mrs. W. H. DeLong, 180 Fifty-fourth street, Chicago.

No ostentation attended the wedding. It was quiet and impressive. The Methodist Episcopal ring service was adopted. Master Curtis Hostetter, acting as page, preceded the groom to an alcove in the parlor where the ceremony was performed, carrying the ring on a silver tray. The wedding march was played by a full orchestra.

The home was beautified by a rich display of palms, smilax and American beauties. After the service a wedding supper was served in which 75 friends participated. Mr. and Mrs. Eggers left at once on a tour of the east. They will visit Niagara Falls and then descend the Hudson to New York City, being absent two weeks.

Mrs. Eggers is known in Benton Harbor society, having spent several seasons with her brother here. She is a very intelligent young lady and has charming manners. Her husband owns one of the largest grocery stores on the south side.

John H. Herr and family of this city attended the wedding.

## SPEECH OF POKAGON.

He Made a Touching Address at the Holland Celebration.

HOLLAND, Aug. 27.—One of the best addresses at the Holland semi-centennial was that of Chief Pokagon which was couched in simple language. He said:

Our people who sleep beneath your soil came here from the coast of the Atlantic. They were pioneers in their time, as you are today. When they first entered these woodland plains they said in their hearts: "We are surely on the borderland of the happy hunting grounds beyond."

Here our people built their wigwams, and their children played under the green pavilion of the mighty forest, as happy as your children now play in the open field, or on your decorated lawns. I speak of this not complainingly, for I have always taught my people not to sigh for years long gone by, nor pass again over the bloody trails their fathers trod. I fully realize that, as pioneers of this land, you had mountains of difficulty to overcome, of which our race knew not.

The same forest that frowned on you, smiled upon us; the same forest that was agony and death to you, was our bulwark and defense; the same forests you have cut down and destroyed, we loved, and our great fear was that the white man, in his advance westward, would mar or destroy it. I realize fully how hard you labored, day in and day out, year in and year out, to reclaim your farms from the unbroken forests until your labors were crowned with success, and the wilderness budded and blossomed as the rose.

Fathers and mothers! How those names! and while I have stood among strangers my heart has continually whispered in my ears, saying, "Pokagon, your father and mother a century ago passed and repassed this very spot, along their winding trails."

I have stood as a peacemaker between your people and my people, trying to soothe the prejudices of the two races toward each other. Yes, without bow or gun I have stood as one standing between two armies advancing toward each other for a fight, receiving a thousand wounds from your people and my own people. In conclusion permit me to say, I rejoice with the joy of childhood that you have granted "a son of the forest" a right to speak to you.

## THE WHITE HOUSE STORE...

Like golden sunshine our prices fall, Their golden rays shed dollars for you all.

## OUR FINE STOCK OF ...

Dry Goods, Clothing, Capes, Jackets, Ladies' and Gentlemen's Furnishings, Hats and Caps, Gloves, Mittens, Underwear, Blankets, Trunks and Valises

MUST BE SOLD

True every day brings its crowds of satisfied buyers, but while things are going fast, they must go faster still. When we say our stock must be sold, 'tis no idle talk—no advertising catch-phrase, the entire stock must go and the prices are going to make you take them away. If you need a Suit or Overcoat, if you think you'd like one, if you're ever going to need one, now is your time to buy, for things must go if low prices will make them go.
